

United States of America
Department of Transportation — Federal Aviation Administration
Supplemental Type Certificate

Number SE00409LA

This certificate, issued to AIR NEW ZEALAND LIMITED
AUCKLAND INTERNATIONAL AIRPORT, JEFFREY ROBERTS RD.
AUCKLAND, NEW ZEALAND

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 33 of the Federal Aviation Regulations.

Original Product — Type Certificate Number: E30NE
Make: Rolls Royce
Model: RB211-524G/H Series Engines

Description of Type Design Change: Installation of Gas Generator Fairing Thermal Insulation Blankets in accordance with Air New Zealand Service Bulletin SB7203-01052, Revision 2 dated February 23, 1996, or later FAA approved revisions.

Limitations and Conditions: This approval should not be extended to engines of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that engine. The STC holder will provide a written permission statement to each person it authorizes to use this certificate to alter the product.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: April 10, 1996

Date of issuance: June 11, 1997

Date received:

Date amended:

By direction of the Administrator
